Albania to Strengthen Cooperation With Neighbors In EU Integration Framework

The third regional forum on cross border cooperation was attended by the Montenegrin Integration Minister, Gordana Djurovic

TIRANA - Albania is seriously committed to consolidate the cooperation with its neighbors regarding issues of the European integration.

The Albanian Integration Minister, Majlinda Bregu has proposed more efficient ways of cooperation in order to speed up the process of integration in the European Union.

"This new way will help more efficiently the use of the funds allocated to each country," said Bregu on Thursday during the third regional forum on cross border cooperation, which was also attended by the Montenegrin Integration Minister, Gordana Djurovic and representatives of the European Commission to Albania.

According to Bregu, the forum aimed at improving the quality of the cross border projects, which help for the development of different areas of the region.

On the other hand, Bregu informed the start of the IPA CBC programme in Kosovo, saying that Albania was seriously committed to

cooperate with the newly operative structure established in Kosovo and assist it in the efforts to conclude on time the operational programme and submit it in April to the European Commission.

"We are currently establishing the task force of the joint programme and are ready to direct and coordinate this process in close cooperation with the Kosovo authorities," Bregu stated.
